

# Vita Ferm® Concept-Aid™

## Premier Breeding Products for Maximum Reproductive Efficiency

### Concept-Aid delivers:

- The unique ability of **Amaferm**® to significantly increase digestibility of forages – increasing the availability of energy, protein and essential trace elements that otherwise would be locked away in the forage
- Several product choices that match calcium, phosphorus, magnesium, potassium and salt content with your unique feeding conditions
- The correct level and form of essential trace minerals balanced to drive maximum trace mineral absorption
- Increased levels of fat soluble vitamins, including Vitamin E at 200 IU/head/day to boost immune response and reproductive efficiency
- Supplemental levels of B-Complex vitamins to help ensure optimized performance and health during periods of stress and or high productivity

Products	Feed Rate	Phos	Calcium	Salt	Mag	K	Zn ppm	Mn ppm	Cu ppm	Se ppm	Co ppm	Vit A IU	Vit D IU	Vit E IU	B Complex	Protected TMs
